

## GREEN BOOK COMMUNICATION

The Green Book Committee on behalf of the Victorian Electrical Supply Industry (VESI) has recently registered the trademark VESI and developed a website located at [www.VESI.com.au](http://www.VESI.com.au). The website has been established to provide a common platform for the VESI, to access, reference and or download relevant industry related information and links.

The website currently hosts the topics listed below, and most contain downloadable material:

### Green Book

- 2006 edition and charter

### Skills & Training

- VESI training modules and matrices
- Apprentice & trainee supervision guidelines
- Training Package information
- VESI Passport Rules
- ENA Passport Guidelines

### Fieldworkers Handbook

- 2006 Field Worker handbook

### HV Live Line Rules

- Minimum Rules for Carrying Out High Voltage Live Line Work in Victoria

### VEDN (Victorian Electricity Distribution Networks)

Management System and Capability Requirements for Underground Electrical Infrastructure Civil Works

- Civil Operational requirements
- List of approved civil contractors and Network auditors
- VEDN Civil contractor application and approval process
- Training requirements

### Installation Connection Procedures

- Polarity, Phase Sequence, Neutral conductor and correct operation of metering equipment procedures

### VESI/VCSA

- Victorian Construction Safety Alliance (VCSA) with VESI

The website is constantly being updated with new information. Any comments or feedback may be relayed via the "Contact" tab within the particular VESI module you wish to comment on.
